

LUIZ MIGUEL SILVA DE LIMA

Product Engineer

SUMMARY

- I'm a Software Engineer with 1+ year of experience. With passion for infrastructure, AI systems, and full-stack engineering — contributing to big open-source projects like **Paddler** (self-hosted LLM serving) and smaller projects such as **Poet** (static site generator with built-in MCP server).
- Currently studying Computer Networks at IFPB, Brazil, I'm proactive and interested on high performance systems. I love sharing knowledge through documentation and articles.

EXPERIENCE

Product Engineer, Intentee, Warsaw, Poland

Dec 2025 — Apr 2026

- Designed and maintained cloud infrastructure across AWS and OVH using Terraform and Ansible. Built tailored AI infrastructure for deploying and optimizing LLM models across cloud and on-premises environments.
- Worked on SaaS projects with full-stack technology such as Golang, Rust, Python and JS (React). Built and worked around big projects like **Paddler** (AI serving for self-hosted LLMs). And managing complex projects, PR reviews. Besides issues, features and bugs prioritization. Enhancing optimization on high-performance tools.

Independent Freelance Software Engineer

Sep 2024 — Jul 2025

- Built complex web applications and backend systems using React, Rust, and Go. Applied SOLID and KISS principles for clean, maintainable codebases. Contributed to **Paddler** and **Poet**, focusing on infrastructure integration, PR reviews, and OSS best practices

EDUCATION

Computer Networks, Computer network, Federal Institute of Paraíba, João Pessoa

Studying Computer Networks Federal Institute of Paraíba, in Brazil. Where i can go deeper on gaining experience and additional knowledge on the development of infrastructure and computer networks.
